

100% ONLINE ENGLISH FOR PILOTS

This program addresses the specific needs of those pilots wishing to comply with ICAO language proficiency standards established in Doc. 9835 in March 5th, 2008. It also aims to keep English language alive among the pilot population despite the many challenges they usually face due to time and location constraints. Classes are very dynamic, 100% in English. During the course, participants find many opportunities to practise the spoken language, show what they know, listen to other pilots, elaborate a strategy to understand and to get the message across. Positive Rate optimizes the pilot's chances to use English language in an ideal environment, which is with other pilots who share similar concerns and challenges. The course you've been waiting for: convenient, effective and aviation specific.

There will be **5 classes per week**. Our recommendation is to take at least two: **one session 1 and one session 2**, but you're very welcome to take all of them. Some pilots join every day! Look at the schedule and choose the ones of your preference. All classes are recorded, so if you miss one, you can watch the recording.
